

Summary of safety measures

Regular cleaning and disinfection of public areas with the appropriate cleaning agents according to tested hygiene regulations.

Increased hygiene measures when cleaning the guest rooms after each stay, regardless of the length of stay.

Regular intensive cleaning of contact surfaces such as key cards, door handles, lift buttons, light switches etc.

Access restriction and distance control in all areas of the house including checking of compliance by the staff.

In all public areas, dispensers with disinfectants suitable for viruses are available for guests.

Possibility of cash and contactless payment.

All employees wear a mouth and nose protection and have been sufficiently trained.

Breakfast alternative to the buffet according to the valid regulations (only valid for houses with breakfast offer).
